GENERAL INFORMATION
Qualifications, Conduct, and Training in the Code

O.C.G.A. § 21-2-92(a)
Poll officers appointed pursuant to Code Sections 21-2-90 and 21-2-91 shall be judicious, intelligent, and upright citizens of the United States, residents of or otherwise employed by the county in which they are appointed or, in the case of municipal elections, residents of or otherwise employed by the municipality in which the election is to be held or of the county in which that municipality is located, 16 years of age or over, and shall be able to read, write, and speak the English language. No poll officer shall be eligible for any nomination for public office or to be voted for at a primary or election at which the poll officer shall serve. No person who is otherwise holding public office, other than a political party office, shall be eligible to be appointed as or to serve as a poll officer. A parent, spouse, child, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of a candidate shall not be eligible to serve as a poll officer in any precinct in which such candidate's name appears on the ballot in any primary or election.

O.C.G.A. § 21-2-99(a)
The election superintendent shall provide adequate training to all poll officers and poll workers regarding the use of voting equipment, voting procedures, all aspects of state and federal law applicable to conducting elections, and the poll officers' or poll workers' duties in connection therewith prior to each general primary and general election and each special primary and special election; provided, however, such training shall not be required for a special election held between the date of the general primary and the general election. Upon successful completion of such instruction, the superintendent shall give to each poll officer and poll worker a certificate to the effect that such person has been found qualified to conduct such primary or election with the particular type of voting equipment in use in that jurisdiction. Additionally, the superintendent shall notify the Secretary of State on forms to be provided by the Secretary of State of the date when such instruction was held and the number of persons attending and completing such instruction. For the purpose of giving such instructions, the superintendent shall call such meeting or meetings of poll officers and poll workers as shall be necessary. Each poll officer shall, upon notice, attend such meeting or meetings called for his or her instruction.

O.C.G.A. § 21-2-99(b)
No poll officer or poll worker shall serve at any primary or election unless he or she shall have received instructions, as described in subsection (a) of this Code section; shall have been found qualified to perform his or her duties in connection with the type of voting equipment to be used in that jurisdiction; and shall have received a certificate to that effect from the superintendent; provided, however, that this shall not prevent the appointment of a poll officer or poll worker to fill a vacancy arising on the day of a primary or election or on the preceding day.
Election Offenses Involving Operation of the Polls

Poll managers must familiarize themselves with the following sections of the Georgia Election Code to ensure that unlawful acts or omissions by poll officers do not occur.

- O.C.G.A. § 21-2-584: Refusal or failure of manager to administer oath to poll officer; poll officer acting without being sworn; giving of false certificate as to swear of poll officer.
- O.C.G.A. § 21-2-590: Poll officer permitting unregistered or unqualified persons to vote; refusing to permit registered and qualified persons to vote; unlawful rendering of assistance.

Polling Place Preparation in the Code

O.C.G.A. § 21-2-267(a)

The governing authority of each county and municipality shall provide and the superintendent shall cause all rooms used as polling places to be provided with suitable heat and light and, in precincts in which ballots are used, with a sufficient number of voting compartments or booths with proper supplies in which the electors may conveniently mark their ballots, with a curtain, screen, or door in the upper part of the front of each compartment or booth so that in the marking thereof they may be screened from the observation of others. A curtain, screen, or door shall not be required, however, for the self-contained units used as voting booths in which direct recording electronic (DRE) voting units or electronic ballot markers are located if such booths have been designed so as to ensure the privacy of the elector. When practicable, every polling place shall consist of a single room, every part of which is within the unobstructed view of those present therein and shall be furnished with a guardrail or barrier closing the inner portion of such room, which guardrail or barrier shall be so constructed and placed that only such persons as are inside such rail or barrier can approach within six feet of the ballot box and voting compartments, or booths, or voting machines, as the case may be. The ballot box and voting compartments or booths shall be so arranged in the voting room within the enclosed space as to be in full view of those persons in the room outside the guardrail or barrier. The voting machine or machines shall be placed in the voting rooms within the enclosed space so that, unless its construction shall otherwise require, the ballot labels on the face of the machine can be plainly seen by the poll officers when the machine is not occupied by an elector. In the case of direct recording electronic (DRE) voting units or electronic ballot markers, the devices shall be arranged in such a manner as to ensure the privacy of the elector while voting on such devices, to allow monitoring of the devices by the poll officers while the polls are open, and to permit the public to observe the voting without affecting the privacy of the electors as they vote.

O.C.G.A. §§ 21-2-328 and 21-2-375

- At least one hour prior to the time set to open the polls, the voting machines and supplies will be delivered to the polling places in each precinct.
- The machines will be set up in the proper manner, signs, sample ballots and other instructions will be posted, and other supplies will be distributed.

O.C.G.A. §§ 21-2-374, 379.24 and 379.25

- Prior to opening the polls, the manager will break the seal on each voting unit, turn on each unit, certify that each unit is operating properly and set to zero.
- A zero tape will be printed from each Polling Place Scanner certifying that no votes are present.
- The manager shall keep this tape and record this zero count on the polling place scanner recap sheet.

ELECTION DAY

Although there is no such thing as a typical election day, this section reviews what happens when everything goes as planned. If assigned to a particular station, know your role and make the poll manager aware of any questions or concerns you may have before the polls open.

Poll workers must be aware of a few important things whenever voters begin entering the polling place.

How should voters with disabilities be accommodated?
What happens if a voter is wearing campaign material?
Can someone take a picture of their ballot?
What are Poll Watchers?
ELECTION DAY

Voter Flow

• Voters enter the polling place
  o When a voter enters the polling place, ensure they are not wearing any campaign material for any candidates on the ballot that day. Greet the voter with a smile and direct them to the appropriate station to begin the voting process.
• Identification & Poll Pad Check-in
  o Check their identification to find them in Poll Pad. The voter’s eligibility is checked on the Poll Pad. The voter will sign the electronic voter certificate. Acceptable ID is found in O.C.G.A. § 21-2-417. If they have not voted, they are issued a voter access card (the card they insert into the DRE units), and added to the Numbered List of Voters.
• Vote on BMD
  o The voter is then directed to the BMD touchscreen units. They will insert the voter access card into the machine, select their candidates for each election, review their choices, and select “print ballot”. Once the voter prints their ballot, the card will pop out of the machine.
• Voter casts ballot in the polling place scanner
  o The voter will place their printed ballot in the polling place scanner. Once a ballot is scanned into the polling place scanner, the ballot is cast.
• Voter returns Voter card to Poll Worker
  o Ensure the voter has completed their voting, returned their card, and received their sticker and then thank them for voting.
• Voter exits the polling place

• Provisional Ballots
  o If a voter, for any reason, is unable to cast a ballot at your polling station but would like to be issued a provisional ballot, they will fill out their ballot at the “Provisional Ballot Station”. Ensure them that they will be notified if their ballot was counted typically within a week after the election.
ELECTION DAY

Accommodating Voters with Disabilities

Signs are vital. Directional signs should designate accessible parking spaces and be visible, especially those designating handicapped parking spaces, as well as the nearest accessible entrance if it is not the main door.

If the polling place does not have a permanent handicapped parking space, designate a handicapped parking space by placement of a temporary “Handicapped Parking Sign.” Make sure there is wheelchair access to the building, the polling place, and the voting booth.

Always be courteous and respectful. Be considerate of extra time it may take for a person who is disabled or elderly to complete the voting process, and give unhurried attention to a person who has difficulty speaking.

Always speak directly to the voter, and not to a companion, aide, or sign language interpreter.

Animals that assist people with disabilities should be admitted into all buildings. DO NOT pet or distract these Assistance Animals, as they are working animals, not pets.

If you observe a voter with a disability who needs assistance, ASK “May I help you in any way?” before rendering assistance. The answer you receive should dictate any further assistance.

Place chairs or benches along a waiting area for the convenience and comfort of those who may have difficulty standing in line.

Assistance to Voters

A voter is entitled to assistance if the voter is:
• Unable to read the English Language and/or
• Has a disability which renders the voter unable to:
  o See or mark the ballot…OR
  o Operate the voting equipment…OR
  o Enter the voting compartment or booth without assistance
• Notice of the availability of assistance shall be posted at polling place.
• “A physically disabled or illiterate elector may receive assistance in preparing his or her ballot from” …
• Any person of the elector’s choice EXCEPT
  o Elector’s Employer or Agent of Employer
  o Officer or Agent of Elector’s Union
  o Candidate on the Ballot or Family Member of Candidate
  o Unless Disabled/Illiterate Elector is Related to Candidate
ELECTION DAY

Voter enters the Polling Place

**Voters with Speech or Hearing Impairment**
- A voter who cannot speak can give their name and address simply by providing their written name and address to the poll worker
- Follow the voter’s cues to determine whether speaking, gestures, or writing is the most effective method of communication
- If speaking, speak calmly, slowly, and directly to the voter. Do not shout. Your facial expressions, gestures, and body movements help in understanding.
- Face the voter at all times and keep your face in full light (not backlit)
- Rephrase, rather than repeat, sentences that the voter does not understand

Campaign Activity or Materials

O.C.G.A. § 21-2-413 and 21-2-414

• No person, when within the polling place, shall electioneer or solicit votes for any political party or body or candidate or question, nor shall any written or printed matter be posted within the room.

• No person whose name appears as a candidate on the ballot being voted upon at a primary, election, special primary, or special election, except a judge of the probate court serving as the election superintendent, shall physically enter any polling place other than the polling place at which that person is authorized to cast his or her ballot for that primary, election, special primary, or special election and, after casting his or her ballot, the candidate shall not return to such polling place until after the poll has closed and voting has ceased.

• No person shall solicit votes in any manner or by any means of method, nor shall any person distribute any campaign literature, nor shall any person solicit signature for any petition, nor shall any person, other than election officials discharging their duties, establish or set up any tables or booths on any day in which ballots are being cast:
  o Within 150 feet of out the outer edge of the building in which the polling place is established;
  o Within any polling place; or
  o Within 25 feet of any voter standing in line to vote at any polling place.

• Rooms under the control or supervision of the board of registrars or absentee ballot clerk in which absentee ballots are cast shall be considered polling places.

O.C.G.A. § 21-2-2

• Defines Campaign materials as “any newspaper, booklet, pamphlet, card, sign, paraphernalia, or any other written or printed matter referring to:
• A candidate whose name appears on the ballot in a primary or election;
• A referendum which appears on the ballot in a primary or election; or
• A political party or body which has a nominee or nominees on the ballot in a primary or election
The voting line is an important component in all polling places. At each polling place, there should be a plan to deal with a scenario where there is a line that is well out the door. Consider the following questions and options for a well-maintained voting line:

- Do you have room for the voters to line up safely around the building?
- O.C.G.A. § 21-2-414(a) (3) states that there can be no campaigning within 25 feet of anyone waiting in line to vote. Are you prepared to make those measurements?
- At your busier polling locations where you expect a line, have a designated person to manage the line. This person’s focus should be to prepare the voters for the check-in and voting process.
- Consider giving poll workers a special nametag that says something like “Have a question about voting? Ask me.”
- Have the poll workers monitor voters in line to ensure there is no campaigning in line or wearing campaign materials.
- Have the poll worker notify the voters of the required identification needed to vote and to have it ready to present to the poll work at the Poll Pad Station.
- Consider providing that poll worker with an electors list, a portable Poll Pad, or a device that can access MVP to look up voters in line to ensure that they are at the correct polling location.
- If the line is caused by a long ballot or long questions on the ballot, be sure to have extra sample ballots available to pass out to voters in line. The more prepared they are when they get to the voting machine, the quicker you will be able to process them.

- **Poll Pad** - Poll Pad digitally stores registered voter information for each county in Georgia. Poll Pads allows you to search for voters and check their eligibility for the election. If they have not voted during Advanced in Person or by Absentee by Mail, they are issued a voter card to vote. The voter inserts the card into the Touchscreen, makes their selections and prints their ballot and then after reviewing their ballot, inserts it into the Polling Place Scanner to cast their vote. The voter is added to the Numbered List of Voters.

- **Supplemental List** - The supplemental list contains the voters that met the Voter Registration deadline, but did not meet the deadline for the Poll Pad upload. Anyone that is not on the Poll Pad but is on the supplemental list is allowed to vote on the Touchscreen unit. These voters do not need to vote provisionally. A voter card is manually created for these voters.

- **Paper Back Up List** - The paper back up list is a list of all the electors in your precinct. If your polling place loses power or your Poll Pads stop working for some reason, you do not have to stop processing voters. This is what the paper list is for.

If the check-in function is not properly working, the voter should be checked in using the backup paper elector’s list.

- Ballot Activation Codes - Codes for the different ballot styles.
- Elector’s List/Supplemental List - Poll officers will verify voter information using the elector’s list & supplemental list.
- Paper Voter Certificates - A sufficient amount of paper voter certificates to last for at least two hours of voting. Voters will complete paper voter certificates prior to voting on the ICX-BMDs.

Backup Procedures

Using Emergency Paper Ballots

If an emergency situation makes utilizing the electronic ballot markers impossible, impracticable, or if emergency ballots are otherwise needed as determined by the election superintendent, the poll officer shall issue the voter an emergency paper ballot that is to be filled out with a pen after verifying the identity of the voter and that the person is a registered voter of the precinct. While the determination of an emergency situation is in the discretion of the election superintendent, the types of events that may be considered emergencies are power outages, malfunctions causing a sufficient number of electronic ballot markers to be unavailable for use, or waiting times longer than 30 minutes. (SEB Rule 183-1-12-.11 (2) (c) & (d))

Items Needed:

• Emergency Ballots - The election superintendent shall cause each polling place to have a sufficient amount of emergency paper ballots so that voting may continue uninterrupted if emergency circumstances render the electronic ballot markers or printers unusable. For any primary or general election for which a state or federal candidate is on the ballot, a sufficient amount of emergency paper ballots shall be at least 10% of the number of registered voters assigned to a polling place. (SEB Rule 183-1-12-.11 (2)(c)) Emergency Ballots must be secured prior to use.

• Dominion Voting Approved Pens
  o Sharpie Fine Point Black (part #: 30001 SKU: 071641300019).
  o Paper Mate Flair M Medium Point Black, (part #: 8430152, SKU: 041540843016).

Voting Procedures:

• The poll officer shall verify the identity of the voter and that the person is a registered voter of the precinct.

• On the Poll pad, the poll officer will select “Emergency Ballot” instead of “Touchscreen,” and hit “submit” in order to finalize check-in of the voter. No voter access card is needed or created.

• The poll officer shall provide an emergency ballot to the voter that is to be filled out with a pen.

• The voter shall mark their ballot with a pen in an area that provides voter privacy.

• The voter shall scan their ballot in the scanner connected to the ballot box.

• Emergency ballots shall not be treated as provisional ballots, but instead shall be placed into the scanner in the same manner that printed ballots in the polling place are scanned.

• All unused emergency ballots shall be placed into a secure envelope and sealed such that the envelope cannot be opened without breaking such seal.
PROVISIONAL & CHALLENGED BALLOTS

All voters must complete a voter certificate and provide proper identification. This section details certificate completion and provides examples of proper identification.
PROVISIONAL BALLOTS

Provisional Ballots in the Code - O.C.G.A. § 21-2-418

(a) If a person presents himself or herself at a polling place, absentee polling place, or registration office in his or her county of residence in this state for the purpose of casting a ballot in a primary or election stating a good faith belief that he or she has timely registered to vote in such county of residence in such primary or election and the person's name does not appear on the list of registered electors, the person shall be entitled to cast a provisional ballot in his or her county of residence in this state as provided in this Code section.

(b) Such person voting a provisional ballot shall complete an official voter registration form and a provisional ballot voting certificate which shall include information about the place, manner, and approximate date on which the person registered to vote. The person shall swear or affirm in writing that he or she previously registered to vote in such primary or election, has not voted previously in such primary or election, and meets the criteria for registering to vote in such primary or election. The form of the provisional ballot voting certificate shall be prescribed by the Secretary of State. The person shall also present the identification required by Code Section 21-2-417.

(c) When the person has provided the information as required by this Code section, the person shall be issued a provisional ballot and allowed to cast such ballot as any other duly registered elector subject to the provisions of Code Section 21-2-419.

(d) Notwithstanding any provision of this chapter to the contrary, in primaries and elections in which there is a federal candidate on the ballot, in the event that the time for closing the polls at a polling place or places is extended by court order, all electors who vote during such extended time period shall vote by provisional ballot only. Such ballots shall be separated and held apart from other provisional ballots cast by electors during normal poll hours. Primaries and elections in which there is no federal candidate on the ballot shall not be subject to the provisions of this subsection.

(e) The registrars shall establish a free access system, such as a toll-free telephone number or internet website, by which any elector who casts a provisional ballot in a primary or election, or runoff of either, in which federal candidates are on the ballot may ascertain whether such ballot was counted and, if such ballot was not counted, the reason why such ballot was not counted. The registrars shall establish and maintain reasonable procedures necessary to protect the security, confidentiality, and integrity of personal information collected, stored, or otherwise used by such free access system. Access to such information about an individual provisional ballot shall be restricted to the elector who cast such ballot. At the earliest time possible after the casting of a provisional ballot, the election superintendent shall notify the Secretary of State that an elector cast a provisional ballot, whether such ballot was counted, and, if such ballot was not counted, the reason why such ballot was not counted.

(f) At the time an elector casts a provisional ballot, the poll officers shall give the elector written information that informs the elector of the existence of the free access system required by subsection (e) of this Code section by which the elector will be able to ascertain if his or her ballot was counted and, if such ballot was not counted, the reason why such ballot was not counted.

(g) Failure to establish such free access system shall subject the registrars and the county by which the registrars are employed to sanctions by the State Election Board.

(h) Notwithstanding any other provision of this chapter to the contrary, in the event that the voting machines or DRE units at a polling place malfunction and cannot be used to cast ballots or some other emergency situation exists which prevents the use of such equipment to cast votes, provisional ballots may be used by the electors at the polling place to cast their ballots. In such event, the ballots cast by electors whose names appear on the electors list for such polling place shall not be considered provisional ballots and shall not require verification as provided by Code Section 21-2-419; provided, however, that persons whose names do not appear on the electors list for such polling place shall vote provisional ballots which shall be subject to verification under Code Section 21-2-419.
PROVISIONAL BALLOTS

Provisional Ballots in the Code - S.E.B. Rule 183-1-12-.18

(1) This rule shall govern the casting of provisional ballots by voters at primaries and elections in accordance with O.C.G.A. §§ 21-2-418 and 21-2-419.

(2) In each polling place, there shall be established a location or station in the public area of the polling place for the purpose of issuing and receiving provisional ballots. Each polling place shall have an information sheet developed by the Secretary of State available for voters who have questions about the provisional ballot process. The information sheet should describe relevant law regarding provisional ballots for voters who do not show up on the electors list for that polling place.

(3) The election superintendent shall provide each polling place with an adequate supply of provisional ballots in each ballot style (district combination) for the precinct and an inner ballot envelope and an outer ballot envelope. The election superintendent shall also be prepared to resupply polling places with provisional ballots in needed ballot styles in a timely manner while voting is occurring so that polling places do not run out of provisional ballots. The ballot envelopes shall be so designed that the ballot will fit within the inner ballot envelope and the inner ballot envelope will fit within the outer ballot envelope. The inner ballot envelope shall have printed on it the words "Official Provisional Ballot" and nothing else. The outer envelope shall have places for inserting the person's name, precinct, date and name of election, ballot style (district combination), and whether such ballot is a regular provisional ballot, a provisional ballot cast by a voter who registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. §§ 21-2-220 and 21-2-417, or a ballot cast during poll hours extended by a court order, or a combination thereof. Primaries and elections conducted by counties shall use optical scan ballots for provisional voting. The poll manager shall cause all voted provisional ballots to be deposited into the provisional ballot box and not be inserted into the polling place ballot scanner and kept separate and apart from non-provisional ballots cast at the polling place. Municipalities shall use the same type of ballots as the municipality uses for mail-in absentee voting. The election superintendent shall also provide a booth for voting provisional ballots in the enclosed space which will provide privacy for a person while voting a provisional ballot and a secure container in which the voted provisional ballots shall be placed.

(4) Voters whose names do not appear on electors list.

(a) When a person arrives at a polling place, completes a voter certificate, and presents it to the poll workers but the person's name does not appear on the official electors list for the precinct, the poll officers shall immediately direct the person to the provisional ballot station. The polling place shall have an electronic poll book that includes a master list of registered voters in the state, and the poll workers shall check the list to determine if the person is assigned to a different polling place within the county or registered in a different county. If the person's name appears on the master list for a different precinct within the same county, the poll workers shall inform the person of his or her correct polling place. The person shall be instructed to go to his or her correct polling place if practicable, but that if it is not practicable for the person to get to his or her correct polling place before the close of polls, that the person may vote a provisional ballot in the polling place in which they are present. If, after receiving that instruction, the person states that it is not practicable for him or her to get to their correct polling place prior to the close of voting, the poll officer shall offer the person a provisional ballot. If the person is registered in a different county, the poll officer shall inform the person that he or she appears to be registered in a different county. If the person is still eligible to vote in the county in which they appear to be registered, the person may return to that county to vote. If the person states a good-faith belief that he or she timely registered to vote in the county in which he or she is present, he or she shall be offered a provisional ballot.
S.E.B. Rule 183-1-12-.18 continued

(b) If the person's name is not found on the official list of electors for the precinct or the master list, the poll officers shall immediately contact the registrars and the person shall provide such information as the registrars may request to determine if the person is eligible to vote in the election. The registrars shall promptly review the information provided by the person and shall attempt to determine if the person timely and properly registered to vote in the county in which he or she is present.

(c) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election and should be assigned to the precinct at which the person is present, the registrars shall authorize the poll officers to add the person's name to the official electors list for the precinct and shall permit the person to vote in the same manner as other voters in the precinct vote. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the precinct with a notation of the name of the registrar who authorized such addition. Upon presentation of a properly completed voter certificate and the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other voters in the precinct.

(d) If the registrars can immediately determine that the person timely and validly registered to vote in the primary or election but should be assigned to a different precinct within the same county where the person is present, the registrars shall direct the poll officers to inform the person of the appropriate other precinct and the registrars shall notify the officers of such other precinct to add the person's name to the official electors list for such other precinct. When there are multiple ballot styles (district combinations) in use in such other precinct, the registrars shall also advise the poll officers at such other precinct which ballot style (district combination) should be issued to the person. The person's name shall then be added to the official electors list for the other precinct by the poll officers of the other precinct with a notation of the name of the registrar who authorized such addition. Upon completion of a voter certificate and the submission of the identification required by O.C.G.A. § 21-2-417, the person shall be permitted to vote in the same manner as other persons in such other precinct. However, the poll officer shall also instruct the person that if it is not practicable for such person to go to such other precinct before the polls close and the person communicates that to the poll officers, the person shall be offered a provisional ballot at the precinct in which the person is present. In such case, all votes cast by such person for candidates for whom such person is properly entitled to vote shall be counted and all votes cast for candidates for whom such person is not properly entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(e) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if properly registered, would be assigned to the precinct at which the person is present, the registrars shall inform the poll officers and the person shall be offered a provisional ballot at such precinct. When there are multiple ballot styles (district combinations) in use in the precinct, the registrars shall also advise the poll officers which ballot style (district combination) should be issued to the person.

(f) If the registrars cannot immediately determine that the person timely and validly registered to vote in the primary or election; but, from the information presented by the person, the person, if registered, would be assigned to a different precinct from the precinct in the county at which the person is present, the registrars shall direct the poll officers to inform the person of the appropriate precinct. The registrars shall notify the officers of such other precinct to permit the

official voter registration form and a provisional ballot voter certificate, and submits the
appropriate identification required by O.C.G.A. § 21-2-417. When there are multiple ballot styles
(district combinations) in use in such other precinct, the registrars shall also advise the poll
officers which ballot style (district combination) should be issued to the person. However, the
poll officer shall also instruct the person that if it is not practicable for such person to go to such
other precinct before the polls close and the person communicates that to the poll officers, the
person shall be offered a provisional ballot at the precinct at which such person is present. In such
case, all votes cast by such person for candidates for whom such person is properly entitled to
vote shall be counted and all votes cast for candidates for whom such person is not properly
entitled to vote shall be void and shall not be counted in accordance with O.C.G.A. § 21-
2·middot;419(c).

(g)If the person appears at a precinct in a county or municipality in which the person does not
reside, the registrars shall instruct the poll officers to direct the person to contact the registrars in
the county in which the person resides to determine in which precinct such person should vote.

(h)If the poll officers cannot get in touch with the registrars after making a reasonable effort to do
so, the poll officers shall be authorized to permit the person to receive a provisional ballot at the
precinct without additional authorization from the registrars. In such case, all votes cast by such
person for candidates for whom such person is properly entitled to vote shall be counted and all
votes cast for candidates for whom such person is not properly entitled to vote shall be void and
shall not be counted in accordance with O.C.G.A. § 21-2-419(c).

(i)Upon accepting the opportunity to receive a provisional ballot, the person shall complete a
provisional ballot voter certificate and an official voter registration form and submit such
completed certificate and form to the poll officers along with the appropriate identification
required by O.C.G.A. § 21-2-417. The poll officers shall place the name of the person on the
numbered list of provisional ballot voters and issue the person a provisional ballot of the style
authorized by the registrars along with an Inner ballot envelope and an outer ballot envelope.
Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's
name, the name of the precinct, the date and name of the election, and the ballot style (district
combination) on the outer envelope. The person shall then retire to the provisional ballot voting
booth and mark the ballot with his or her intended selections. Upon completing the ballot, the
person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope
containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The
person shall then return the sealed envelope to the poll officers.

(j)Upon receiving the sealed ballot envelope from a person casting a provisional ballot, the poll
officers shall verify that the information requested on the outer ballot envelope is complete, shall
mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein,
and shall direct the person to place the ballot envelope into the secure container for provisional
ballots which shall be located within the enclosed space in the polling place where it can be
monitored by the poll officers and observed by the public. The provisional ballot voter certificate
and voter registration form shall be attached together and shall be placed in a separate,
distinctively marked envelope or reusable document container which shall be placed in a secure
location in the polling place.

poll workers but does not have the identification required by O.C.G.A. § 21-2-417 and the
person's name appears on the official electors list for the precinct with a designation that the

When there are multiple ballot styles (district combinations) in use in the precinct, the poll officers shall issue the appropriate ballot style (district combination) to the person as shown on the elector's list. The poll officers shall place the name of the person on the numbered list of provisional ballot voters and issue the person a provisional ballot of the style authorized by the registrars along with an inner ballot envelope and an outer ballot envelope. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers.

(b) Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box or boxes to designate the type of provisional ballot enclosed therein, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.

Such identification may be provided to the registrars in person, by email, by facsimile transmission or, in the case of disabled voters, by delivery by a third party.

(6) Voters voting during extended polling hours in an election in which federal candidates are on the ballot.

(a) In the event that the polling hours for a polling place are extended by a court order beyond the normal closing time for a primary, election, or runoff in which federal candidates are on the ballot, all voters who vote after the normal closing time for the polling place shall vote by provisional ballot.

(b) Voters whose names appear on the elector's list and who have the appropriate identification required by O.C.G.A. § 21-2-417 shall complete a provisional voter certificate and shall be issued a provisional ballot along with an inner ballot envelope and an outer ballot envelope. Such voters shall not be required to complete a voter registration form. It also shall not be necessary to obtain approval from the registrars to issue provisional ballots to such voters. The poll officers shall place the name of the person on the numbered list of provisional ballot voters. Before issuing the outer ballot envelope to the person, the poll officers shall enter the person's name, the name of the precinct, the date and name of the election, and the ballot style (district combination) on the outer envelope. The person shall then retire to a provisional ballot voting booth and mark the ballot with his or her intended selections. Upon completing the ballot, the person shall seal the ballot in the inner ballot envelope and place the inner ballot envelope containing the ballot into the outer ballot envelope and shall seal the outer ballot envelope. The person shall then return the sealed envelope to the poll officers. Upon receiving the sealed ballot envelope from a person completing a provisional ballot, the poll officers shall verify that the information requested on the outer ballot envelope is complete, shall mark the appropriate box to designate that the ballot is an extended poll hours provisional ballot, and shall direct the person to place the ballot envelope into the secure container for provisional ballots which shall be located within the enclosed space in the polling place where it can be monitored by the poll officers and observed by the public.
(c) If the voter's name is not on the electors list, the poll workers shall follow the provisions of this rule for regular provisional balloting under this rule and, if the voter is authorized by the registrars to vote a provisional ballot under the terms of this rule, shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(d) If the voter's name is on the electors list but registered to vote for the first time in this state by mail and has not provided the identification required by O.C.G.A. § 21-2-220, the poll officers shall permit the voter to vote in accordance with the provisions of this rule for first time voters who register for the first time in this state by mail without providing the required identification, and shall also mark the appropriate box on the outer ballot envelope to indicate that the ballot was issued during extended poll hours.

(e) The poll officers shall provide each first time voter who registered for the first time in this state by mail without providing the required identification who casts a provisional ballot information on how the voter may provide the registrars with the appropriate identification in order that the voter's ballot may be counted.

(7) Each voter casting a provisional ballot in a primary, election, or runoff in which federal candidates appear on the ballot shall be given written information explaining how such voter can ascertain if such ballot is counted and, if such ballot is not counted, the reason why such ballot was not counted.

(8) The provisional ballot voter certificates and voter registration cards may be picked up during the day by a registrar or deputy registrar for the purpose of beginning the process of determining the eligibility of the persons to cast provisional ballots. Before transferring the voter certificates and registration cards to the registrars during the day, the poll officers shall note the number of certificates and cards being transferred to the registrars. If such voter certificates and registration cards are not picked up by the registrars by the time that the polls close and the last voter has voted, the envelope in which the provisional ballot voter certificates and voter registration cards have been deposited shall be securely sealed and shall be returned to the election superintendent with the other materials from the polling place.

(9) After the close of the polls and the last voter has voted, the poll officers shall account for all voted provisional ballots, cancelled and spoiled provisional ballots, and unused provisional ballots. The ballot stubs and unused and spoiled ballots shall then be securely sealed in the container provided for them by the election superintendent. The poll officer, along with two other witnesses sworn as poll officers, shall then proceed to open the secure container in which the provisional ballots were deposited and count the number of voted provisional ballots contained therein. The poll officer and witnesses shall then compare the total number of persons voting provisional ballots as shown on the numbered list of provisional ballot voters with the number of ballots issued and the number of ballots voted. If these numbers do not equal one another, the poll officers shall determine the reason for the inconsistency and shall correct the problem before going further. The poll officer and witnesses shall seal the voted provisional ballots in a container for transfer to the election superintendent. The poll officers shall complete and sign a provisional ballot recap sheet and post one copy of the recap sheet on the door of the polling place with the election results from the precinct. Such challenge shall be in writing and specify distinctly the grounds of such challenge. Such challenge may be made at any time prior to the elector whose right to vote is being challenged voting at the elector's polling place or, if such elector cast an absentee ballot, prior to 5:00 P.M. on the day before the election; provided, however, that challenges to persons voting by absentee ballot in person at the office of the registrars or the absentee ballot clerk shall be made prior to such person's voting.

(b) Upon the filing of such challenge, the board of registrars shall immediately consider such challenge and determine whether probable cause exists to sustain such challenge. If the registrars do not find probable cause, the challenge shall be denied. If the registrars find probable cause, the registrars shall notify the poll officers of the challenged elector's precinct or, if the challenged elector voted by absentee ballot, notify the poll officers at the absentee ballot precinct and, if practical, notify the challenged elector and afford such elector an opportunity to answer.

(c) If the challenged elector appears at the polling place to vote, such elector shall be given the opportunity to appear before the registrars and answer the grounds of the challenge.

(d) If the challenged elector does not cast an absentee ballot and does not appear at the polling place to vote and if the challenge is based on grounds other than the qualifications of the elector to remain on the list of electors, no further action by the registrars shall be required.

(e) If the challenged elector cast an absentee ballot and it is not practical to conduct a hearing prior to the close of the polls and the challenge is based upon grounds other than the qualifications of the elector to remain on the list of electors, the absentee ballot shall be treated as a challenged ballot pursuant to subsection (e) of Code Section 21-2-386. No further action by the registrars shall be required.

(f) If the challenged elector does not cast an absentee ballot and does not appear at the polling place to vote and the challenge is based on the grounds that the elector is not qualified to remain on the list of electors, the board of registrars shall proceed to hear the challenge pursuant to Code Section 21-2-229.

(g) If the challenged elector cast an absentee ballot and the challenge is based upon grounds that the challenged elector is not qualified to remain on the list of electors, the board of registrars shall proceed to conduct a hearing on the challenge on an expedited basis prior to the certification of the consolidated returns of the election by the election superintendent. The election superintendent shall not certify such consolidated returns until such hearing is complete and the registrars have rendered their decision on the challenge. If the registrars deny the challenge, the superintendent shall proceed to certify the consolidated returns. If the registrars uphold the challenge, the name of the challenged elector shall be removed from the list of electors and the ballot of the challenged elector shall be rejected and not counted and, if necessary, the returns shall be adjusted to remove any votes cast by such elector. The elector making the challenge and the challenged elector may appeal the decision of the registrars in the same manner as provided in subsection (e) of Code Section 21-2-229.
(h) If the challenged elector appears at the polls to vote and it is practical to conduct a hearing on
the challenge prior to the close of the polls, the registrars shall conduct such hearing and
determine the merits of the challenge. If the registrars deny the challenge, the elector shall be
permitted to vote in the election notwithstanding the fact that the polls may have closed prior to
the time the registrars render their decision and the elector can actually vote, provided that the
elector proceeds to vote immediately after the decision of the registrars. If the registrars uphold
the challenge, the challenged elector shall not be permitted to vote and, if the challenge is based
upon the grounds that the elector is not qualified to remain on the list of electors, the challenged
elector's name shall be removed from the list of electors.

(i) If the challenged elector appears at the polls to vote and it is not practical to conduct a hearing
prior to the close of the polls or if the registrars begin a hearing and subsequently find that a
decision on the challenge cannot be rendered within a reasonable time, the challenged elector
shall be permitted to vote by casting a challenged ballot on the same type of ballot that is used by
the county or municipality for provisional ballots. Such challenged ballot shall be sealed in
double envelopes as provided in subsection (a) of Code Section 21-2-419 and, after having the
word "Challenged," the elector's name, and the alleged cause of the challenge written across the
back of the outer envelope, the ballot shall be deposited by the person casting such ballot in a
secure, sealed ballot box notwithstanding the fact that the polls may have closed prior to the time
the registrars make such a determination, provided that the elector proceeds to vote immediately
after such determination of the registrars. In such cases, if the challenge is based upon the
grounds that the challenged elector is not qualified to remain on the list of electors, the registrars
shall proceed to finish the hearing prior to the certification of the consolidated returns of the
election by the election superintendent. If the challenge is based on other grounds, no further
action shall be required by the registrars. The election superintendent shall not certify such
consolidated returns until such hearing is complete and the registrars have rendered their
decision on the challenge. If the registrars deny the challenge, the superintendent shall proceed to
certify the consolidated returns. If the registrars uphold the challenge, the name of the challenged
elector shall be removed from the list of electors and the ballot of the challenged elector shall be
rejected and not counted and, if necessary, the returns shall be adjusted to remove any votes cast
by such elector. The elector making the challenge and the challenged elector may appeal the
decision of the registrars in the same manner as provided in subsection (e) of Code Section 21-2-229.
